Belleza y seguridad para cada espacio.
Beauty and safety for every space.

Una selección de materiales antideslizantes desarrollada bajo los estándares técnicos más exigentes del mercado.

Productos diseñados para garantizar un alto grado de resistencia al deslizamiento en zonas exteriores y espacios húmedos como baños, terrazas o piscinas.

Pero detrás de cada desarrollo técnico también hay una forma de entender el diseño: cercana, comprometida y pensada para el bienestar de las personas.

Creemos que la seguridad y la estética pueden ir de la mano, y por eso trabajamos para que nuestros productos antideslizantes ofrezcan funcionalidad sin perder su atractivo visual.

Nuestros materiales cumplen con las normativas europeas vigentes y superan los valores requeridos en las pruebas de control, lo que los convierte en una solución segura y fiable para espacios que requieren prestaciones específicas sin renunciar a una cuidada propuesta estética.

Porque la seguridad también empieza en los detalles. Y en Undefasa cuidamos cada uno de ellos.

A selection of non-slip materials developed according to the most demanding technical standards on the market.

Products designed to ensure a high level of slip resistance in outdoor areas and wet spaces such as bathrooms, terraces, or swimming pools.

But behind every technical development lies a design philosophy: one that is thoughtful, committed, and centered on people's well-being.

We believe that safety and aesthetics can go hand in hand, which is why we strive to ensure our non-slip products deliver functionality without sacrificing visual appeal.

Our materials comply with current European regulations and exceed the required values in quality control tests, making them a safe and reliable solution for spaces that demand specific performance features without compromising on refined design.

Because safety begins with the details. And at Undefasa, we take care of every single one.
