THE BEAUTY OF PRISTINE WHITE
LA BELLEZA DEL BLANCO ORIGINAL

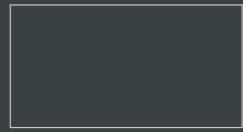

Fine and subtle gray-blue veins dot its texture in the form of varying lines crisscrossing its semi-white surface, revealing a functional marble, modern in character and innately elegant.

Las finas y sutiles vetas gris - azulado salpican su textura en forma de heterogéneas líneas que atraviesan una superficie nívea generando un mármol funcional, con carácter actual y una elegancia innata.
